SUMMARY

Detail-oriented Business Administration graduate with strong skills in Excel, SQL, and Power BI developed through independent learning and hands-on projects. Experienced in data management, process optimization, and client coordination through marketing internships and freelance work, including e-commerce optimization and performance tracking. Customer-focused, organized, and analytical, eager to contribute strong problem-solving and technical skills to entry-level roles in data analytics, marketing, or business operations.

WORK EXPERIENCE

Marketing Intern, Bellahbeatrix Cosmetics Product Trading

Jan 2023 - Present

- Provided reliable customer support by handling order processing, tracking shipments, and organizing receipts and records using Microsoft Excel, ensuring client satisfaction and smooth operations.
 - Led the development of branding strategies and digital content for more than 15 clients, ensuring alignment with current market trends. Produced over 20+ videos and graphics optimized with keywords to improve search engine visibility and online presence.
 - Managed Facebook Ad campaigns that increased post engagement by 60% and successfully drove higher traffic to client pages, demonstrating strong skills in paid advertising.
-

PROJECTS

E-Commerce Marketing Analytics Dashboard | Data Analytics Project | [Link](#)

- Analyzed key marketing KPIs, including customer engagement, conversion rate, and customer ratings, to identify performance gaps and business issues.
- Used SQL / MS SQL Server to extract and query marketing and customer data for analysis and reporting.
- Performed data cleaning and feature creation to improve data quality and support accurate insights.
- Built an interactive Power BI dashboard to visualize trends, track product performance, and support marketing decision-making.

Executive Sales Dashboard | Data Analytics Project | [Link](#)

- Built an interactive Power BI dashboard to analyze multi-year sales performance, customer segmentation, and product category trends.
- Designed visualizations to identify top-performing customers and analyze sales trends and product performance, providing a clear view of key business metrics for decision-making.
- Enabled data-driven decision-making by visualizing KPIs, allowing for quick identification of top-performing products and sales trends.

Mobile Gamer Hub | Data Analysis Project | [Link](#)

- Utilized Google Analytics, Google Search Console, and ad network dashboards for data aggregation.
 - Conducted competitor and comparative analysis specifically on CPM and revenue metrics to determine network efficacy.
 - Applied web development skills and platform management (GitHub Pages, DNS) to create a stable data collection environment.
-
